SUMMARY

Motivated and enthusiastic Computer Science student with knowledge of Java, Python, HTML, CSS, JavaScript and MySQL. Gained hands-on experience through academic and personal projects in software and web develop-ment. Passionate about Full-Stack Development, problem-solving and continuous learning. Seeking an opportunity to apply and enhance technical skills while contributing to innovative software solutions in a professional environment.

EDUCATION

B. Tech in Computer Science and Engineering (AI & ML) 2023 – 2027 (Expected)
Kalasalingam Academy of Research and Education CGPA: 8.64

Higher Secondary Education (MPC) 2021 – 2023
Sri Chaitanya Junior College Percentage: 89.7%

Secondary School Certificate (SSC) 2020 – 2021
Sri Srinivasa High School
Percentage: 100%

SKILLS

Programming Languages:	Java, Python (Basics)
Web Technologies:	HTML, CSS, JavaScript, React.js (Basics)
Database Technologies:	MySQL
Tools & Platforms:	Git, GitHub, Visual Studio Code
Soft Skills:	Problem Solving, Team Collaboration, Communication, Adaptability

INTERNSHIP EXPERIENCE

AI Web Development Intern May 2026 – Jun 2026
In Amigos Foundation

- Completed 5 AI-focused web development assignments, including AI-powered website creation, website analysis, Figma prototyping, and UI/UX improvement proposals, while meeting all project deadlines
- Collaborated with the development team to evaluate website usability, propose design improvements, and deliver project documentation while following software development best practices.

PROJECTS

Smart PDS: Automated Time-Slot Booking & Distribution System | HTML | CSS | JavaScript | Node.js | Socket.io | Supabase | Python | Flask | Scikit-Learn

- Engineered a scalable multi-role full-stack web application with automated time-slot booking, multilingual support (7 languages), and Progressive Web App (PWA) capabilities to streamline the public distribution pro-cess.
- Integrated a Scikit-learn–based eligibility prediction model using Flask API and developed a real-time ad-ministrative dashboard with Socket.io, Supabase, and Chart.js for live booking synchronization, inventory management, and secure transaction processing using SHA-256 hashing.

MarroeCode – AI-Powered Coding Practice Platform | React.js | Supabase | PostgreSQL | Python | AST

- Developed a full-stack coding practice platform with an IDE-style interface, enabling users to write, execute, and analyze code in real time.
- Built an AI-powered Python AST analysis engine integrated with Supabase PostgreSQL to deliver intelligent code feedback, complexity analysis, coding history management, and performance analytics.
