SUMMARY

Motivated Computer Science and Engineering (AI & ML) student skilled in Java, SQL, HTML, CSS, and JavaScript, with hands-on experience in software and full-stack web development projects. Strong foundation in OOP, DBMS, and problem-solving, seeking an entry-level Software Engineer role to develop efficient and reliable software solutions.

EDUCATION

B. Tech in Computer Science and Engineering (AI & ML)	2023 – 2027 (Expected)
Kalasalingam Academy of Research and Education	CGPA: 8.64
Higher Secondary Education (MPC)	2021 – 2023
Sri Chaitanya Junior College	Percentage: 89.7%
Secondary School Certificate (SSC)	2020 – 2021
Sri Srinivasa High School	Percentage: 100%

SKILLS

Programming Languages:	Java, Python
Web Technologies:	HTML, CSS, JavaScript, Node.js, React.js
Database Technologies:	SQL, Supabase
Tools & Platforms:	Git, GitHub, Visual Studio Code
Core Concepts:	Object-Oriented Programming (OOP), DBMS
Soft Skills:	Problem Solving, Team Collaboration, Communication, Adaptability

PROJECTS

Smart PDS: Automated Time-Slot Booking & Distribution System HTML CSS JavaScript Node.js Socket.io Supabase Python Flask Scikit-Learn
- Developed a full-stack web application with role-based authentication, automated time-slot booking, 7-language localization, and Progressive Web App (PWA) support. - Integrated a machine learning-based eligibility prediction model to automate beneficiary verification, reducing manual review effort. - Built real-time administrative dashboards for live booking synchronization, inventory tracking, and analytics, with fraud-prevention safeguards for data integrity.
Behavior Recognition in Videos for Autism Detection Python TensorFlow/Keras OpenCV MediaPipe HTML CSS JavaScript
- Developed an AI-powered web application for autism behavior recognition that classifies behavioral patterns in uploaded videos using CNN-LSTM deep learning models. - Engineered a video preprocessing and pose estimation pipeline to extract motion and movement-based features, improving detection accuracy and reliability. - Integrated the trained model into a full-stack web interface, enabling secure video upload, automated prediction, and visualization of behavioral analysis results for end users. Live Demo
