SUMMARY

Final-year B. Tech Computer Science and Engineering (AI & ML) student with a CGPA of 8.64, skilled in Java, SQL, HTML, CSS, and JavaScript. Hands-on experience in software and web development, with strong problem-solving and programming fundamentals. Experienced in building responsive web applications and developing efficient, reliable software solutions. Seeking an entry-level Software Engineer role to apply technical skills and contribute to software development projects.

EDUCATION

B. Tech in Computer Science and Engineering (AI & ML) Kalasalingam Academy of Research and Education	2023-2027 (Expected) CGPA: 8.64
Higher Secondary Education (MPC) Sri Chaitanya Junior College	2021 – 2023 Percentage: 89.7%
Secondary School Certificate (SSC) Sri Srinivasa High School	2020 – 2021 Percentage: 100%

SKILLS

Programming Languages:	Java
Web Technologies:	HTML, CSS, JavaScript
Database Technologies:	SQL
Core Concepts:	Object-Oriented Programming (OOP), DBMS
Tools & Platforms:	GitHub, Visual Studio Code
Soft Skills:	Problem Solving, Team Collaboration, Communication

PROJECTS

Smart PDS: Automated Time-Slot Booking & Distribution System

- Developed a full-stack web application with role-based authentication, automated time-slot booking, 7-language localization, and Progressive Web App (PWA) support.
- Integrated a machine learning-based eligibility prediction model to automate beneficiary verification, reducing manual review effort.
- Built real-time administrative dashboards for live booking synchronization, inventory tracking, and analytics, with fraud-prevention safeguards for data integrity.

Behavior Recognition in Videos for Autism Detection

- Developed an AI-powered web application for autism behavior recognition that classifies behavioral patterns in uploaded videos using CNN-LSTM deep learning models.
- Engineered a video preprocessing and pose estimation pipeline to extract motion and movement-based features, improving detection accuracy and reliability.
- Integrated the trained model into a full-stack web interface, enabling secure video upload, automated prediction, and visualization of behavioral analysis results for end users. [Live Demo](#)
